	Blue flash every 2 seconds, "WELCOME TO AVANTREE" voice indicator	Power on
	Solid red for 1 second then off, "GOODBYE" voice indicator	Power off
	Alternate red & blue flashes, "PAIRING" voice indicator	Pairing
	Blue flash every 5 seconds, "CONNECTED" voice indicator	Connected
	Blue flash every 2 seconds, "DISCONNECTED" voice indicator	Disconnected
	Solid pink for 5 seconds, then alternate red & blue flashes	Clearing pairing history
B	Solid green, "NOISE CANCELING" voice indicator	Active Noise Cancellation (ANC) mode

Charging the Headphones

A "LOW BATTERY" voice prompt and a flashing red **A** light indicates low battery. In order to charge, you can use either a 5V/500mA-2A rated USB adapter (your phone charger or similar should work) or PC USB port as a power source.

Plug the provided type C power cable directly into the headphones' charging port.

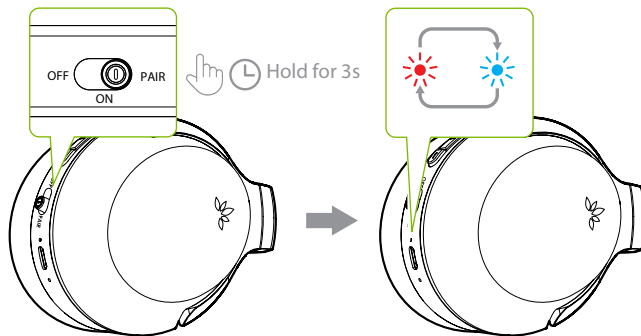

A solid red light indicates that charging is in progress; once the light turns off, your headphones will be at full battery.

Connecting the Headphones to Your Device

Using with Your Phone

STEP 1

Turn on the headset. It will enter pairing mode automatically on the first use. Otherwise, slide and hold the power switch to the "PAIR" position until you hear "Pairing" and see the LED flashing RED & BLUE.

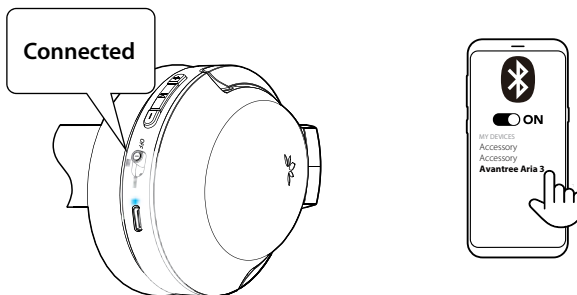

STEP 2

Turn on your device's Bluetooth and select "Avantree Aria 3" in the Bluetooth menu.

STEP 3

Keep the headphones close to your device and wait for 5-10 seconds or until they connect. Once they're successfully connected, you'll hear a "CONNECTED" voice indicator on headphones. The headphones' LED indicator will flash blue, then turn solid blue once you play audio.

For subsequent use, your headphones should automatically reconnect to the last-paired device within a few seconds of being turned on. If not, you can manually activate reconnection by sliding the OFF  PAIR switch to "PAIR" once, or by selecting "Avantree Aria 3" in your device's Bluetooth menu.

Using with Your PC

To connect the headphones to your PC, follow these steps:

STEP 1

Turn on the headset. It will enter pairing mode automatically on the first use. Otherwise, slide and hold the power switch to the "PAIR" position until you hear "Pairing" and see the LED flashing RED & BLUE.

STEP 2

Go to your computer's Bluetooth settings and search for the Avantree device. Click "Connect".

STEP 3

Keep the devices close together. Once successfully connected, the headset's LED will turn solid blue, and you will hear a "Connected" voice indicator.

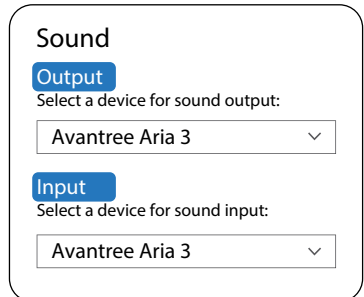

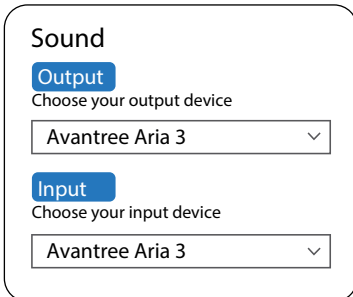

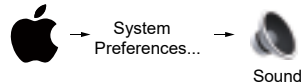

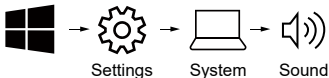

For subsequent use, the headset should automatically reconnect to the last paired device within a few seconds after turning on. If not, manually reconnect by sliding the power switch to “PAIR” once or selecting “Avantree” from your device’s Bluetooth menu.

Configuring Audio Settings (Only for PC)

You may need to configure your audio settings when using the Aria 3 with your PC or laptop.

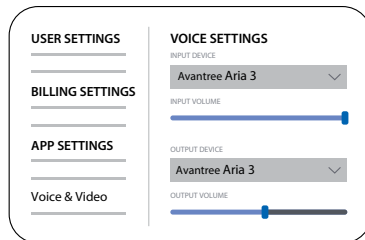

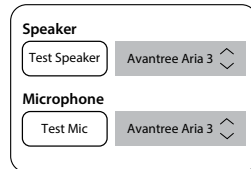

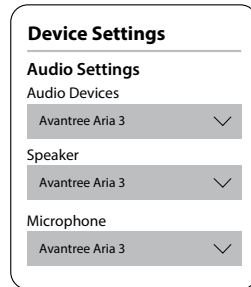

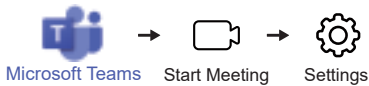

STEP 1

In your device’s audio settings, ensure that “Avantree Aria 3” is selected as the default for both SOUND OUTPUT / PLAYBACK and INPUT / MICROPHONE device.

STEP 2

Repeat the above steps in your meeting software (i.e. Teams, Zoom, Skype, etc.)

NOTE: On Windows 7 / 8.1 / 10, if you use headphones with PC's built-in Bluetooth, select "Avantree Aria 3 hands free" as the default instead.

Specifications

Headphones

Bluetooth version	v5.3
Supported audio codecs	SBC
Supported profiles	HSP v1.2, HFP v1.7, AVRCP v1.6, A2DP v1.3.1
Operating range	Up to 30ft / 10m
Drivers	40mm
Impedance	32Ω
